**14-15 July 2011  
University College Dublin, Ireland**

In the recent global financial meltdown China has emerged as a stronger global economic player. China's economic growth has been widely recognised as a key driving force of the world economic recovery and China's economic and political influence is reaching much far and wide. While the Chinese government's decisive stimulus programme to steer the Chinese economy away from collapsing was exemplary, China indeed faces tough challenges ahead in keeping growth fast and pushing forward difficult structural reforms in the aftermath of the global financial crisis. Issues of rebalancing its sources of growth ranges from reforming monetary and financial policies not at the expense of national competitiveness, rebalancing sources of growth between exported-led and domestic consumption, diversifying the export markets, accommodating rising labour costs in the low-cost growth model, rebalancing regional development, moving from imitation to independent innovation, and pursuing sustainable development. Given the size of the Chinese economy, the direction and pace of China's economic growth and structural reforms will undoubtedly give rise to far reaching impacts on the world economy. Also, the way China manages and grows its economy has provided plenty of food for thought on the varieties of systems that make prolonged growth possible. The main theme of the 22<sup>nd</sup> Annual Conference of CEA (UK) and the 3<sup>rd</sup> CEA (Europe) Conference concerns China's economic dynamics and its impact on the rest of the world whilst exploring whether a Beijing consensus is in the making. Several distinguished scholars have been invited to give keynote speeches at our conference:

**Professor Joseph Eugene Stiglitz (Nobel Laureate 2001, Columbia University)**  
**Professor Elinor Ostrom (Nobel Laureate 2009, Indiana University)**  
**Dr. Ding Xuedong (State Council of China)**  
**Professor Wen Tiejun (Renmin University of China)**  
**Professor Martin King Whyte (Harvard University)**  
**Professor Gordon Redding (INSEAD)**  
**Dr. Stefen Halper (University of Cambridge)**

### **CEA (UK/Europe) Parallel Conference 2011**

Another major feature of the CEA (UK/Europe) annual conference is a parallel conference held in conjunction with a Chinese university each year. CEA (UK/Europe) is pleased to announce that the 2011 parallel conference is to be held at **City University of Hong Kong** and selected papers at the Dublin conference will be invited to attend the conference.

#### **About the CEA (UK)**

The CEA (UK) was launched in 1988 and has since become one of the leading organisations in Europe promoting research on China. Its past annual conferences have attracted wide-ranging attention from academic institutions, government organisations, banks and industries, alongside the media in the UK and China. Prominent speakers have included ministers from the Chinese and British governments, the Chinese ambassadors, and eminent academic figures of international repute including Nobel laureates of economic sciences. Papers from these conferences have been published in leading economics and business journals, edited books and the CEA (UK)'s official journal, the *Journal of Chinese Economic and Business Studies*, published by Taylor & Francis.

#### **About the CEA (Europe)**

CEA (Europe) was established in 2009 as a major expansion of CEA (UK). It is a non-profit and independent legal entity. The main objective of the CEA (Europe) is to promote scholarly exchanges and encourage academic leadership on Chinese economic and business studies in Europe. All CEA (UK) members will be offered free membership of CEA (Europe).
